

FIG. 1 is a schematic diagram of a network system 100. The network system 100 includes a central network 100, which is connected to various devices. The devices include two servers, 102 and 104, two workstations, 106 and 108, and two printers, 110 and 112. The network 100 is represented by a cloud shape. The servers 102 and 104 are represented by rounded rectangles. The workstations 106 and 108 are represented by rounded rectangles. The printers 110 and 112 are represented by printer icons. The network 100 is connected to each of the devices 102, 104, 106, 108, 110, and 112 via a lightning bolt symbol, indicating a network connection.
